RELIABLE FUNERAL SERVICE

A LESSON FROM THE CHINESE

The story is told that the Chinese pay the doctor to keep them well, and if they contract illness, the doctor pays them instead. Whether or not this story is true, the general idea is sound. Serious illness often can be prevented by regular health examinations. Form a habit of visiting your doctor often — at least twice a year. If you do not have a family physician, we will be glad to recommend several from whom you can make your selection.
